

Under-Sink Measure & Layout Sheet

Measure A-F, sketch the pipes, plan three zones, then buy bins that fit.

Measure at the cabinet

- A** Inside width _____
- B** Height at the front _____
- C** Floor to lowest pipe _____
- D** Drain center from left wall _____
- E** Depth, front to back wall _____
- F** Valve position and height _____

Plan the zones

DAILY

Front, easiest reach _____

TOOLS

Gloves, brushes, cloths _____

BACKUP

Refills, behind or above _____

KEEP CLEAR

Trap, valves, disposal, filter _____

Monthly 5-minute leak check

- ☐ Pull the front bins out and look at the cabinet floor.
- ☐ Check drain and supply connections for drips, crust, or stains.
- ☐ Feel the floor and the cabinet base for dampness or swelling.
- ☐ Look at bottles for cracks, residue, or leaks.
- ☐ Return everything only when the area is dry.
- ☐ If you find water: close both shut-off valves, then call a plumber.
