

Small Bathroom Zone Plan

Measure five spots, plan four zones, then buy only what fits.

1. Measure five spots

- 1 Cabinet interior (w x d x h) _____
- 2 Free counter area _____
- 3 Wall above toilet (width, tank lid to ceiling) _____
- 4 Back of door (height, clear width) _____
- 5 Ceiling height _____

2. Plan four zones

DAILY

Mirror and one counter tray _____

HAIR AND SKIN

Top drawer with dividers _____

TOWELS AND SPARE

Shelf above toilet, back of door _____

CLEANING

Lower cabinet, original containers _____

3. Keep these clear (check local code)

About 15 in from toilet center to the nearest side wall or fixture.

About 21 in of clear space in front of the toilet.

Room above the tank to lift the lid. Door must close freely.

4. Weekly two-minute reset

- ☐ Clear the counter tray and return strays to their zones.
- ☐ Wipe the counter and hang towels spread open.
- ☐ Check the cabinet floor for moisture.
- ☐ Run the fan during showers and about 20 minutes after.
